MANAGEMENT DISCUSSION AND ANALYSIS

TARRIF CINE & FINANCE LIMITED IN FINANCIAL YEAR 2017-18 - BUSINESS & FINANCIAL PERFORMANCE

TARRIF CINE & FINANCE LIMITED (TCF)

TCF being registered as NBFC with RBI has been primarily engaged into:

A) Investing in securities of listed and unlisted companies and B) Lending activities.

The investment portfolio of your company is diversified across various sectors such as financial services, healthcare, retail, packaging, information technology, real estate, etc. Your Company as in the last few years continues to evaluate investment opportunities in asset based transactions with good growth prospects. Further the Company is also looking at evaluating lending activities in a selective manner.

For Financial Year 2017-18 on a standalone basis, the Company's profit for the year stood at Rs. (2,110,000)/- as against Profit of Rs. 43,98,837/- in the previous year thereby an increase in profits as compared to the previous year.

ECONOMIC & INDUSTRY OVERVIEW:

The projection for GDP growth for 2018-19 has been retained at 7.4% as projected in the April policy of Monetary Policy Committee (MPC) of Reserve Bank of India (RBI). India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF) and it is expected to be one of the top three economic powers of the world over the next 10-15 years, backed by its strong democracy and partnerships. According to Central Statistics Office (CSO), the Indian economy posted a growth rate of 7.7% during Q4 – January – March 2018, enabling the country to retain its position as the fastest growing major economy. The RBI has estimated GDP Growth in a range from 7.4% to 7.9% for FY 2019-20. India has positioned itself as the most dynamic emerging economy among the largest countries and is expected to remain the fastest growing on the back of

robust private consumption and noteworthy domestic reforms gradually being implemented by the Government.

The Indian Economic growth is projected to strengthen to above 7%, gradually recovering from the transitory adverse impact of rolling out the Goods and Services Tax ('GST') and demonetisation. In the longer run, GST will boost corporate investment, productivity and growth by creating a single market and reducing the cost of capital equipment. After suffering from a temporary setback, the economy is bouncing back and consumption is driving growth.

While a fiscal deficit of 3.5% of the GDP was achieved in 2017–18 higher than 3.2% budgeted last year. The fiscal deficit has been projected at 3.3% of GDP for the year 2018-19, higher than the fiscal consolidation target of 3%.

India's current account deficit (CAD) for 2017-18 has widened on the back of a higher trade deficit. According to the RBI data, the CAD for last fiscal widened to 1.9 percent of the GDP (Gross Domestic Product) from 0.6 percent in 2016-17.

The economic activity is expected to gather pace in FY 2018-19, benefitting from a conducive domestic and global environment. The key drivers supporting growth will largely be domestic and policy driven. The economy is poised to benefit from receding implementation troubles on Goods and Service Tax ("GST") resulting in higher tax collections, the re-capitalisation of public sector banks and the resolution of distressed assets under the Insolvency and Bankruptcy Code, 2016. Given that this is a run up to the election year, the Government's thrust on Rural and Infrastructure sectors could rejuvenate Rural demand as well as Infrastructure and Consumer spending.

The problem of Non-Performing Assets ("NPA") in the banking sector is expected to peak by March 2019 at approximately 11% of gross banking advances. This will constrain the banking system from growing in aggregate. The changing behaviour of the retail consumer is reflected in credit off-take becoming increasingly broad-based and Financialisation of savings. All of these factors augur well for Non - Banking Finance Companies ("NBFC").

Inflation decline in the month of February 2018 was only temporary and inflation is expected to remain within RBI's tolerance limits. RBI is, hence, expected to remain neutral on the policy rate front for most part of FY 2018-19, unless there is clearly an oil price based shock to inflation.

> FINANCIAL SERVICES INDUSTRY:

India's diversified financial services sector is undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises of commercial banks, non-banking financial companies, co-operatives, pension funds, insurance companies, mutual funds and other financial entities. A fast-growing economy, rising income levels, higher financial savings, greater propensity to spend and improving life expectancy rates are some of the encouraging factors that are likely to boost growth in the sector in the coming years. Over the past few years, the Reserve Bank of India (the RBI) has been steadily implementing technology to deepen and broaden financial services in India. Innovative steps like introduction of small finance banks and specialized payment banks have been implemented.

The Mutual Fund (MF) industry in India has seen rapid growth in Assets Under Management (AUM). Total AUM of the industry stood at Rs 23.26 lakh crore (US\$ 360.90 billion) as of April 2018. At the same time the number of Mutual fund (MF) equity portfolios reached a record high of 2.27 billion in February 2018.

Another crucial component of India's financial industry is the insurance industry. The insurance industry has been expanding at a fast pace. The total first year premium of life insurance companies grew 17.35 per cent year-on-year to reach US\$ 25.44 billion during April 2017-February 2018

Going forward, reforms in foreign direct investment, implementation of goods and services tax (GST), and revival in external demand are likely to contribute to a better growth outlook.

> NON-BANKING FINANCE COMPANY (NBFC):

Coming to Non-banking finance company (NBFC) industry, India Ratings and Research (Ind-Ra) has maintained a stable outlook on the NBFC sector and on the major NBFCs rated by it for Financial Year 2018. The sector is expected to continue expanding the assets classes and take higher market share at the cost of mid-sized banks.

Since the past few years, NBFCs have been experiencing a double digit growth, leading to stabilization of the economy on account of bridging the financial gap. Loans and advances grew at 6.6% in first half of FY17-18, as against 12.7 in FY16-17. NBFCs are estimated to grow at a moderate rate of 16-18% in FY17-18, higher than 15% in FY16-17. This growth is driven by rise in SME credit and other key target asset classes. The growth pressure of NBFC sector, is likely to be from Loans Against Property (LAP) and SME segment, which constitute 25% of the total retail NBFC credit.

Data published by the RBI in its Financial Stability Reports dated 30th June 2017 and 21st December 2017 show that the NBFCs have outperformed scheduled commercial banks (SCBs) on growth in advances, asset quality and profitability. This growth momentum of NBFCs should result in their share in the financial services sector increasing in the near future.

With banking sector moving towards recapitalization, and Indian banks facing the challenge of increased Non-Performing Assets (NPAs) in their books, the NBFC sector is expected to get a boost. As the state-run banks will control their lending activities, NBFC sector is anticipated to grow, as more people will start coming to NBFCs for their credit requirements. The NBFC sector is expected to grow at a faster rate by 2020 and the NBFC sector's share in Indian credit market, is expected to grow at 19% by 2020 as against 12% in 2014. (Source: CRISIL)

> OPPORTUNITIES:

The sentiment in the Indian financial market has changed considerably over the past few years; the economic growth, though subdued for last couple of years, is likely to show positive momentum over the coming years. This has presented opportunities for lending to Indian corporate and investments in the vibrant secondary as well as primary markets. The following factors present specific opportunities across our businesses include:

- iv. Low penetration of financial services and products in India along with unique nature of credit demand makes difficult traditional bank lending;
- v. Digital trends in consumer and MSME to offer new disruptive opportunities for innovation and partnerships;
- vi. Deepening of wholesale debt markets to provide easier access to funds
- vii. Regulatory reforms including policy framework aiding greater participation by all class of investors;
- viii. Growing Financial Services industry's share of wallet for disposable income;
 - ix. Wealth management business is transforming from mere wealth safeguarding to growing wealth;

- x. Emerging technology to enable best practices and processes;
- xi. Size of the Indian capital market and favourable demographics like huge middle class, relatively large younger population with disposable income and investible surplus and risk taking abilities of the youth.

> OUTLOOK:

The year 2017-18 saw rapid macroeconomic changes, fast changing business conditions, evolving consumer preferences and increasingly disruptive market environment that drove corporations to significantly rethink the manner in which they operate. After languishing for five consecutive quarters, economic activity in India is quickening. Growth is strengthening as indicated by strong sales growth by corporations, depleting finished goods inventories and restart of investment in fixed

assets by corporations and expected record food grain output.

Equity markets extended their gains in H1:2017-18 into H2, with the Sensex closing at a historic high of 36,283 on January 29, 2018 on account of various factors including strengthening macroeconomic conditions; revival of corporate sales and improving prospects for future earnings; the announcement of PSU banks' recapitalization; a jump in India's ranking in the World Bank's ease of doing business index; the ratings upgrade by Moody's; sustained net investment by domestic institutional investors; and positive cues from global equity markets.

All major components of capital flows, viz., foreign direct investments (FDI), foreign portfolio investments (FPI), nonresident Indian (NRI) deposits and external commercial borrowings (ECBs), recorded net inflows during Q3:2017-18. Gross as well as net FDI flows to India slowed in Q3 relative to preceding quarters.

However, the concerns with regard to deterioration in public finances, rising international crude oil prices, rising interest rates, uncertainties and volatility in financial markets emanating from trade protectionism and trade wars may have adverse impact on growth prospects in terms of cutbacks on public capital expenditure, rising input cost of domestic production and services etc.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 10(f) of the Independent Auditor's Report of even date to the members of Tarrif Cine & Finance Limited on the standalone financial statements for the year ended 31st March, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Tarrif Cine & Finance Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

- 3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing prescribed under section 143(10) of Act and the Guidance Note, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its Subsidiary which is a company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Holding Company and its Subsidiary considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI.

Other Matters

9. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal control over financial reporting in so far as it relates to its Subsidiary which is a company incorporated in India, is based on the corresponding report of the auditor of such company. Our opinion is not qualified in the respect of this matter.
